Supervision of collaborative mental health services must be by a licensed person or a person under supervision, that has been approved by the Boards of Counseling, Psychology, or Social Work as a prerequisite for licensure. The assessment and development of a service plan must be completed and directed by a licensed mental health professional, but the QMHP can implement the plan. A QMHP is not allowed to deliver services outside of the service plan that is being directed by the licensed professional. In practice this means that a licensed professional directs the service plan, which can be through the assessment process of identifying needs to be incorporated into the service plan. The service plan shall directly reflect what was found and recommended by the licensed professional. DBHDS regulations indicate that the service plan can be signed by the person implementing the plan - which could be a QMHP if the services recommended by the licensed professional are rehabilitative support services. All services also require an assessment before they can be delivered.

Regulatory Process

How do I know when there is a change to the laws or regulations that may impact my registration?

Make sure your email address remains up-to-date with the Board of Counseling. The Board uses email as its main form of communication, and will send out emails with important notifications regarding changes in the laws and regulations, and will also send out newsletters. Also, request to be added to the Board of Counseling Public Participation List (PPG List). Person on this list will receive email notifications of regulatory actions with the Board.

Additionally, please look to the Board of Counseling website for up to date information.

Finally, please, register with [Virginia Townhall](#). Upon doing this, you will receive notifications of Board meetings, posting of meeting minutes, regulatory changes, and opportunities for public comment.

What if I disagree with, or see a problem with the Regulations?

The current emergency regulations governing the registration of QMHPs will go through the regulatory process to become permanent. As such, throughout this process, there will be ample time for public comment. Please register with [Virginia Townhall](#) to receive notifications of opportunities for public comment.

Additionally, you can always submit a Petition for Rulemaking with the Board of Counseling. To do this, please submit the form for a [Petition for Rule-making](#) for the Board to amend the current regulations. The Board is then required to address this petition at its next Board meeting.
